

Essential Information Prior to a Consultation

Dear Client,

With the modern, psychological approach to astrology the aim of a consultation will always be to improve the quality of life for the client.

As a prospective client you should keep in mind that forecasting is a very delicate and complicated matter. Your previous life choices will to a large degree determine which choices are available to you in a given situation. Further your life circumstances will inevitably have a huge impact on what you can possibly achieve in life. Not everyone can become a Messi or a Picasso, but we can all become the best us. Hence, an in-depth knowledge of yourself is a much more powerful 'tool' than a passive reception of advice from an astrologer or any other type of counsellor. A consultation should optimally empower you to make informed choices based on your personality traits and your history up till now.

Practical information

A consultation is agreed via email, and the following information is essential:

- **Date of birth**
- **Time of birth** (this should be as exact as at all possible, preferably based on a birth certificate or similar official documentation – please advise the source of the birth time). If the birth time is not known, please see below
- **Place of birth** - this should be the nearest town or city (alternatively geographical coordinates can be used)
- **Your present situation** (job, financial situation, personal life, etc.)
- **The specific subjects you would like the consultation to focus on.** For example: personal relationships, job/career, your financial situation, etc. Please focus on one or maximum two areas to improve the quality of the consultation
- **Your contact details** (e-mail address & phone number). Please indicate whether you agree to be contacted via phone. Usually all communication will be conducted via e-mail, but in case of sudden changes to for example the timing or venue of a consultation, a telephone call could be convenient.

Unknown birth time:

In case you do not know your time of birth a consultation is still possible, albeit with less specific results. Many personality traits will still be discernible and to a certain extent forecasting is also possible.

Venue:

The consultation will normally take place at our office. Alternatively it can take place at another mutually agreed venue, for example your own home or via Skype.
